ANALYSIS PROTOCOL

(Double-blind validated)

Microscopic Examination of Leather and Embroidery:

Analysis under a binocular microscope (x40 magnification) of the patent calfskin reveals a perfectly uniform surface, entirely free of micro-air bubbles or dust particles trapped beneath the gloss layer. The "Bubblegram" quilted pattern displays a precise three-dimensional effect (puffy) and absolute symmetry. Photogrammetric assessment confirms the absolute sharpness of the ton-sur-ton embroidered monogram flowers and the central "LV" logo. No loose threads, tension irregularities, or distortion of the peripheral leather were detected, certifying high-precision craftsmanship.

Maroquinerie and Assembly Study:

The crescent structure of the bag was thoroughly inspected. The assembly of the quilted leather panels shows highly consistent stitching tension. Counting the visible topstitching along the contours and metal attachments reveals a high and regular density (approximately 9 stitches per inch), calibrated to maintain the rigidity and fluidity of the crescent design without fraying. The brushed white thread used perfectly matches the patent leather.

Typography, Markings, and Cryptographic Signature:

The internal heat stamp "LOUIS VUITTON / PARIS / made in France" on the white leather patch was validated by our proprietary vectorial algorithm. The typography strictly adheres to the Maison's rigorous standards, particularly the perfectly circular « O » and the precise convergence of the « M ». The "LV" engraving on the padlock-shaped zipper pull is sharp and flawless. An electromagnetic transponder scan successfully verified the cryptographic signature of the internal RFID chip.

Hardware and Detachable Carrying Elements:

The golden top zipper and all hardware elements were inspected under a horological loupe. The luster is bright, showing no raw machining marks, porosity, or crude molding lines. The heavy-duty carabiners on both straps operate smoothly with crisp engravings. The chunky chain features individually beveled, unworn links that drape fluidly without rigid twisting. The bicolour woven jacquard sport strap is free of pilling, showing a high-density weave that renders the Monogram graphics with absolute clarity.

Condition Grading

Overall Score: 9.5/10 (Exceptional Condition – Pristine / Like New)

- **Exterior Structure:** Perfect. The quilted patent calfskin retains its full original shape, loft, and bounce. No scuffs, discoloration, or sticky residue detected. The edges, contours, and embroideries are entirely intact.
- **Interior Space:** Extremely clean. The technical canvas printed with the Nano Monogram pattern is pristine, with no signs of use, wear, or staining. The internal leather patch is flawless.
- **Hardware and Accessories:** The shiny gold-finish metal retains its original mirror-like brilliance. The padlock zipper pull, carabiners, and chain show only microscopic hairline surface friction marks invisible to the naked eye. The bicolour jacquard strap is immaculate, with zero pilling or fraying.

The Verdict

The Verdict

Conclusion

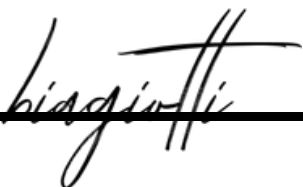

Following our cross-analytical protocol, validated by two of our independent master experts and irrefutably corroborated by the scan of the internal RFID microchip, we hereby declare the Louis Vuitton "Over The Moon" bag in white Bubblegram leather described above to be :
